LIGHTING SOLUTIONS FOR
THE PAINTING INDUSTRY

LIGHTING SOLUTIONS FOR THE PAINTING INDUSTRY

SCANGRIP is constantly pushing back the boundaries of LED lighting and battery technology, creating new and specialized work light solutions.

This new product line is the most comprehensive and sophisticated of its kind in the world. The specialized lighting solutions with superior quality are made for colour matching, detailing and general paint work and are usable everywhere a painted surface needs inspection.

Designed by us. Manufactured by us.

LIGHTING SOLUTIONS FOR THE PAINTING INDUSTRY

The new 4th generation of SCANGRIP lights for the painting industry will strike you as being the widest and most sophisticated range on the market with significantly improved lighting and battery technology. The new product range has embedded all possible needs for effective and specially designed work lights including suspension and stand solutions for both stationary and flexible positioning of the lights to match the specific work task.

Benefit from the entire colour temperature spectrum

Finding the accurate colour match without the right light is one of the challenges that a car painter is facing on a daily basis. Even though two colours appear to match under one lighting condition, they can look different when the light changes. The phenomenon is called metamerism and can also be described as a colour difference that only appears under varying light.

The new invented CCT SCAN functionality offers the option to scan the surface of an object with the various colour temperatures available in the interval from 2500K to 6500K.

CCT SCAN - Stepless

As the CCT SCAN function is representing the entire colour temperature spectrum in one easy step, it makes it faster and more convenient to match the

colour of the car. When it comes to detailing and car care, the detailer can inspect the surface of the car using all the colour temperatures available, and in this way, detect any scratches or imperfections.

Overall, the CCT SCAN functionality provides optimum conditions for the most accurate colour match and highlighting and discovering paint defects.

Importance of right work light

The SCANGRIP lighting solutions increase the quality and finish of each, individual operation and reduces the rate of time-consuming and costly re-work. Due to the special LED features, this lighting range is perfect for any paint, polish, cleaning or prep-zone operation. This means that for instance holograms and polishing errors will be detected during the working operations, and, in this way, several days of costly re-do will be avoided.

State-of-the-art functionality

The sturdy work lights are designed to resist the most extreme demands of the painting workshop environment. The long operating time of the work lights makes it possible to complete a job without interruption of time-consuming recharging. In addition, the new SCANGRIP POWER SOLUTION with exchangeable batteries offers unlimited availability to light. The advanced functionalities with wireless BLUETOOTH lighting control and integrated USB powerbank just underlines the league they are in.

APPLICATION AREAS

- For everybody inspecting painted surfaces
- For all kinds of car, truck and bus workshops
- For car and industrial painters
- For prep-zone operations and detailing centers

// The COB (chips on board) LED technology provides a unique, uniform and completely even illumination with only one shadow which makes it particularly effective for detailing light

// The colour temperature (KELVIN) exactly fits the specific requirements for efficient work light in the painting industry

CRI+

FOR ACCURATE COLOUR MATCHING

Work lights to be used for colour match purposes must have a light source with a high CRI value. The standard CRI value is calculated as an average of the first 8 R-values out of 15. This means that e.g. the R9 (red) value, which is important for correct colour recognition, is not taken into consideration for the CRI value.

SCANGRIP now introduces the **CRI+** term defined as an average of all 15 R-values. This is the only correct definition of the CRI value to be used for accurate and reliable colour recognition.

NEW

SCANGRIP DIFFUSER

The light diffuser is designed to spread and soften the light of your SUNMATCH 4 or MINIMATCH work light, providing new possibilities to adapt the light even further to the specific work task as it minimizes reflections and harsh light.

The cover is lightweight and mounted directly on top of the lens. It is especially applicable for checking high spots while coating, as well as car dent repair and detecting dust nibs on painting.

PATENT PROTECTED

MULTIMATCH WORK LIGHT

Handy and powerful work light for inspection and detailing providing up to 1200 lumen.

The upgraded MULTIMATCH R handlamp features the unique, stepless CCT SCAN function, providing you with the option to customize the light to the specific task. By activating the CCT SCAN function, the work light will automatically scan the surface of the object with the entire colour temperature spectrum from 2500K to 6500K. At any point, you can lock the CCT SCAN function and use the specific colour temperature for colour matching or inspection.

The lamp is easy to carry and is ergonomically designed for a good grip on the handle, which is also equipped with powerful integrated magnets for flexible mounting. This gives you high flexibility and application possibilities for internal inspection of cars and other narrow areas.

The lamp is designed for direct mounting on the SCANGRIP TRIPOD and WHEEL STAND. By using the WHEEL STAND, MULTIMATCH R can be mounted on the lower bracket as a second light to illuminate from below

The handlamp has a built-in power bank with USB outlet to charge mobile devices.

MULTIMATCH WORK LIGHTS

with exchangeable battery pack

Outstanding and powerful rechargeable work lights for inspection of large surfaces during polishing, painting and cleaning operations as well as for colour match.

The work lights feature the ALL DAYLIGHT function, providing you with the option to choose between 5 different colour temperatures. The 5-step dimmer function makes it possible to adjust the light into five different levels depending on the job at hand.

The new SCANGRIP POWER SOLUTION provides you with unlimited availability to light. Easily you can insert a new fully charged battery and continue the work while another battery is charging. Or you can simply add the charger directly to the lamp to get power supply. The integrated battery backup function prevents you from being without light at any time.

By the new BLUETOOTH lighting control app you are able to control and adjust both the light output and the colour temperatures, along with a range of other useful, wireless functions improving daily work efficiency.

The new MULTIMATCH range is supplied with a built-in power bank with USB outlet to charge mobile devices.

The body is made of diecast aluminum which makes it extremely sturdy and shockproof to endure even heavy strokes and shocks. At the same time, it is dust and waterproof, IP67.

SCANGRIP POWER SOLUTION

SCANGRIP has taken advantage of new, high performance battery technologies and invented an innovative concept of flexible and reliable power supply.

The unique, patented concept is called:

SPS7//

SCANGRIP POWER SOLUTION

Patent pending

- DUAL SYSTEM 2in1 with exchangeable battery pack – use both rechargeable with battery or with power supply from the battery charger mounted directly to the lamp
- Integrated backup battery functionality – up to 1h use with 1000 lumen without battery or cable
- IP67 – waterproof to be used in tough environment

With the new, innovative SPS system you will never experience being completely without light and left in total darkness. No matter how limited your access is to power supply the SPS ensures that you always have the necessary light to carry out your job. SPS provides complete freedom, flexibility and maximum work efficiency.

SPS system provides light for the entire work day

Use battery charger directly on the lamp as power supply

Change battery

Charging exchangeable battery

Always light. Never left in the dark.

NEW APP WITH EXTENDED FUNCTIONALITY

With the new BLUETOOTH light control features, you can easily control your MULTIMATCH lamps remotely. The group control function enables quick setup and control of up to four lamps simultaneously. The light control makes it possible to turn on/off the lamp from your phone and adjust the light output as well as the color temperature in steps from 2500k to 6500k to suit the work task in question. Assign your own personal pin code to prevent other users from controlling the lamp.

The wireless application is perfect when working with one or more hard-to-reach lamps, for example positioned on the SCANGRIP TRIPOD.

BLUETOOTH - Light control app

- Dimmer light output into 5 levels 10%-100%
- Adjust CCT value in 5 steps 2500K-6500K
- Switch on/off
- Group control function, up to 4 lamps
- Assign pin code
- Check battery level

SCANGRIP WHEEL STAND

The SCANGRIP WHEEL STAND is developed for mobile positioning of the work light in the detailing workshop. It makes it easy to move the light to where you need it, and at the same time you avoid uncomfortable and heavy lifting from one workplace to the other.

The SCANGRIP WHEEL STAND is extendable from 0.9 m to 1.9 m and comes in an upgraded design. The new base is equipped with 5 wheels for improved safety and stability and easy maneuverability. The wheels are sturdy and of high quality and roll easily even on uneven surfaces. 2 of the wheels are lockable to secure a safe and fixed position.

It is fast and easy to position the work light on the SCANGRIP WHEEL STAND, and when mounted the light can be tilted to provide the optimum beam angle. When the job is done, it can easily be put aside.

As an additional feature of the new, upgraded WHEEL STAND it now comes with a flexible bracket that enables you to easily position a second work light to illuminate from below.

The extra mounting bracket is adjustable in the height and provides complete flexibility to position the light in the optimum height.

When working on the side of the car or doing prep work at the panel this dual light option provides perfect, shadow free illumination from the upper side as well as from the underside.

SCANGRIP TRIPOD

In the detailing workshop the SCANGRIP TRIPOD is indispensable for stationary positioning of the MULTIMATCH work lights for illumination in a specific working area.

The SCANGRIP TRIPOD is extendable from only 1.35m up to 3m which gives you complete flexibility to position the light in the requested height. When mounted on the tripod the light can be tilted to provide the optimum beam angle.

The stable construction of the SCANGRIP TRIPOD makes it safe even when fully extended. To increase safety when in use the cable of the lamp can be fixed in the safety clips placed on each separate leg.

SCANGRIP DIFFUSERS

The light diffuser is designed to spread and soften the light while avoiding hard shadows. It gives you increased functionality and new possibilities to adapt your work light even further to the specific work task. The smooth and diffused light reduces glare and shadows making it easier to identify high spots when working with coatings and see dust nibs on painting. It may also provide a pleasant background light in the detailing studio.

Diffusers for MULTIMATCH work lights

The SCANGRIP DIFFUSER enables you to transform the powerful and bright light from the MULTIMATCH products to a soft and broad spread of light similar to what you would get from a cloudy sky. The high CRI performance of the MULTIMATCH and the ability to adjust colour temperature and brightness of the light is maintained when the diffuser is used. Easy and safe mounting with strong magnets.

SPECIALIZED WORK LIGHT SOLUTIONS

Light is an important tool for many tasks. We take that very seriously when developing specialist lights for niche markets – such as lights for explosive working areas or lights for the painting and detailing industries.

Explosion proof lights for the spray booth

Portable lights for fast curing

GO GREEN - A better choice for the climate

SCANGRIP work lights are a choice in a greener direction where the climate impact is minimized on an everyday basis. All our lighting solutions are developed to be energy saving and with a long lifetime.

Whether you compare energy efficiency with traditional technologies or other LED products, you will save energy by choosing a SCANGRIP work light. The LED PERFORMANCE indicates the actual light output of the LED in a SCANGRIP work light and we aim for the highest number to achieve less power consumption compared to other solutions on the market.

Extended warranty

Every SCANGRIP work light is manufactured at our own factories and subject to strict quality controls. Our lights meet the highest quality standards and are built to last. They are so good that we offer a warranty extension. All SCANGRIP work lights come with a 3-year warranty. Because we stand by the products we offer.

Designed by us. Manufactured by us.

3
years
warranty
PATENT PROTECTED

// SCANGRIP is Europe's leading manufacturer of work lights for professionals providing the strongest and most comprehensive ranges of work lights with the latest LED lighting technology available on the market.

SCANGRIP is innovation from Denmark and receives strong recognition in the marketplace for its product design, and the products are known for their high quality.

SCANGRIP strives for perfection, and is continuously optimizing and improving light output, battery capacity, design and ergonomics, durability, user-friendliness, and functionality. The aim is to set new standards for professional work lights.

SCANGRIP was established in 1906 and has a long, impressive history of manufacturing high-quality hand tools and work lights for the industrial, construction, and automotive sectors.

SCANGRIP is part of Hultafors Group - a global company offering a unique portfolio of premium brands within personal protection, tools, and other equipment for discerning craftsmen. Together, we are on a mission to create a better day for professional users.
