NEW

WORLD'S MOST POWERFUL
LIGHTS FOR UV CURING

WORLD'S MOST POWERFUL CURING LIGHTS

// SCANGRIP provides the strongest and most comprehensive range of LED work lights on the market. The automotive body and paint repair industry keeps requesting UV solutions capable of curing larger areas faster. To meet this demand, SCANGRIP has now developed 2 new superior, and extremely powerful LED solutions for UV curing to perform fast and high-quality curing of any body and paint repair.

The 2 new UV CURING lights will be more than 3 and 6 times as powerful, respectively, as the present UV lights, and will be the far most powerful UV lights in the world!

- Fast curing of very large areas
- Built-in timer
- Controlled remotely by APP
- No heat generation
- Made in Denmark

COLD CURING technology

// No heat is produced on the panel or the paint during the curing

// Allows curing of plastic parts or any heat sensitive material

// Sanding and polishing can be done immediately after the curing is completed

The automotive coatings technology is continuously developing new fast cost-effective methods for automotive body and paint repair. Utilizing UV LED curing technology allows you to work faster and more efficiently as the curing time between each operation is reduced significantly. The range of LED solutions for UV curing is applicable for curing of UV cured primers and UV cured body fillers.

PATENT PROTECTED

// Smart and easy operation with user-friendly APP

The built-in BLUETOOTH functionality makes it safe and easy to operate the lamp remotely, even in groups of up to 4 units simultaneously. Using the APP provides safe activation from a distance to avoid being physically close to the UV curing process.

The APP continuously visualizes the remaining curing time.

Bluetooth®

BLUETOOTH - Light control app

- Set operating time between 1 and 9 minutes
- Adjust operating time without switching off the lamp
- Grouping of up to 4 units and control as one unit

Compliant with iPhone 5 or higher / Android 5.0 or higher. Go to iTunes App Store to download the app or download the app from scangrip.com

COMPATIBILITY

SCANGRIP specialized LED work lights for UV CURING has been tested and proven successfully on leading brands of UV-cured products.

UV-EXTREME

03.5272

Extremely powerful LED work light for very fast and highly efficient UV curing of large paint repair areas, up to approximately 100 x 100 cm

The 2 UV-EXTREME work lights are packed in sturdy and high-quality cases that can withstand shocks and rough handling during shipment. The cases have a built-in handle. When the lights are not in use, the transport case can be used to store the lamp.

UV-EXTREME PLUS

03.5273

Superior and most powerful LED work light in the world for very fast and highly efficient UV curing of larger paint repair areas, up to 135 x 130 cm, equivalent to the size of a car door

NEW

Curing size: 34 x 24 cm
Min. irradiance: >120mW/cm²
Center irradiance: 490mW/cm²
Curing area: 640 cm²

Curing size: 110 x 100 cm
Min. irradiance: >6 mW/cm²
Center irradiance: 68 mW/cm²
Curing area: 8600 cm²

Curing size: 135 x 130 cm
Min. irradiance: >6 mW/cm²
Center irradiance: 18 mW/cm²
Curing area: 13000 cm²

FLEXIBLE POSITIONING ON WHEEL STAND

SCANGRIP WHEEL STAND

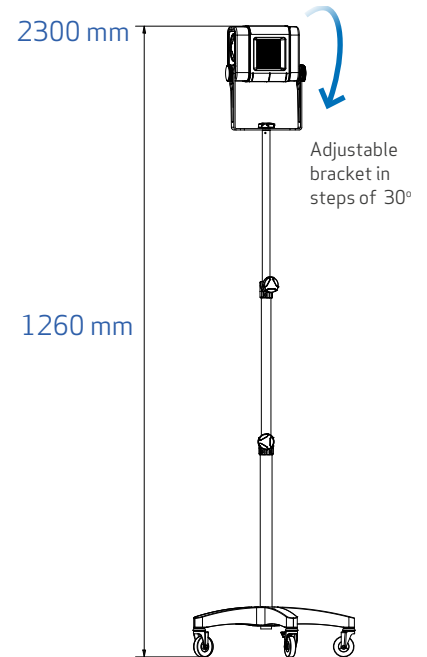

03.5682

// The SCANGRIP WHEEL STAND will be the perfect stand for the 2 extremely powerful curing lights. You will be able to mount the work light on top of the stand and position the light in the requested height (1260-2300 mm). Mounted in the bracket you will also be able to adjust the angle to obtain optimum curing effect on the subject to be cured.

By the app you will be able to control the curing process remotely and do not have to be close to the UV irradiance. When the curing process is finished it is fast and easy to move it aside to make room for the subsequent repair work.

The WHEEL STAND is a very stable and durable construction easy to move around from job to job. The 5-wheel base ensures high stability and easy maneuverability.

MOUNTING BRACKET for UV-EXTREME

03.5915

// Sometimes it is necessary to cure on lower parts of the vehicle or on the side, for instance. For this purpose we recommend to use the bracket of the WHEEL STAND center bar which is adjustable in the height (380-895 mm). To fix the UV-EXTREME or UV-EXTREME PLUS at the lower part of the WHEEL STAND you need this additional MOUNTING BRACKET as accessory.
